Privacy and Use of Personal Data Notice

Footsteps collects, holds and uses personal data about its students and is a "data controller" in respect of this for the purposes of the Data Protection Act 1998.

We use this data to:

- support student teaching and learning;
- monitor and report on their progress;
- provide appropriate pastoral care, and
- assess how well Footsteps as a whole is doing.

This data includes contact details, assessment results, attendance information, characteristics such as ethnic group, special educational needs and any relevant medical information.

From time to time, Footsteps is required to pass on some of this data to organisations such as:

- Local Authority,
- Department for Education (DfE) and the Education Funding Agency, Qualifications and Curriculum Authority (QCA),
- Department of Health (DH) and Primary Care Trusts (PCT)
- Organisations' that require access to data in the Learner Registration System as part of the MIAP (Managing Information Across Partners) programme.

These are agencies that are prescribed by law. They are data controllers in respect of the data they receive and are subject to legal constraints in how they deal with the data.

Students, as data subjects, have certain rights under the Data Protection Act, including a general right to be given access to personal data held about them by a data controller. The presumption is that by the age of 12 a child has sufficient maturity to understand their rights and to make an access request themselves if they wish though a parent/carer would normally be expected to make such requests.

If you wish to access your personal data, or that of your child, then please make a written request to Footsteps.
